SUMMARY

Computer Science undergraduate with a strong interest in artificial intelligence, backend development, and XR systems. Hands-on experience building machine learning models, FastAPI and Flask-based backends, and Unity-powered VR applications. Seeking an internship or entry-level role to apply technical skills in real-world, production-focused environments.

EDUCATION

Vellore Institute of Technology, Bhopal 2023 – 2027
B.Tech in Computer Science and Engineering (Gaming Technology)
CGPA: 8.3 / 10

Sir Padampat Singhania Education Centre, Kanpur 2023
Class XII: 78.8%

Army Public School, Chennai 2021
Class X: 85%

TECHNICAL SKILLS

Programming Languages: C++, Python, C#, SQL, Java
Backend & APIs: FastAPI, Flask, REST APIs
Machine Learning: Scikit-learn, XGBoost, feature engineering, model evaluation
Tools & Platforms: Git, GitHub, Unity Engine, Photon
Core Concepts: Data Structures, OOP, DBMS, Operating Systems, Computer Networks

PROJECTS

GenAI Cyber Incident Reporting & Severity Assessment System

Python, FastAPI, Generative AI Oct 2025 – Dec 2025

- Developed a backend system to collect and process structured cyber incident data using FastAPI.
- Implemented severity scoring logic to classify incidents into priority levels.
- Integrated generative AI to automatically generate detailed incident reports.
- Enabled PDF report generation for documentation and audit purposes.

Phishing URL Detection System

Python, Flask, Scikit-learn, XGBoost Apr 2025 – Jul 2025

- Built a machine learning model to detect phishing URLs using domain and SSL-based features.
- Achieved 94% accuracy through feature engineering and model tuning.
- Deployed the model as a Flask API for real-time URL classification.
- Developed a browser extension to warn users about malicious links.

X-COPE – Multiplayer VR FPS Game
Unity, C#, Photon Sep 2024 – Dec 2024

- Worked on gameplay mechanics and multiplayer features for a VR FPS game.
- Implemented shooting, reloading, and gesture-based interactions.
- Integrated Photon networking for real-time multiplayer gameplay.
- Optimized scenes to maintain smooth VR performance.

CERTIFICATIONS

- **Oracle Cloud Infrastructure – Generative AI Professional**
  Issued by Oracle — Covered LLM fundamentals, embeddings, prompt engineering, and enterprise GenAI use cases.
- **Unity Certified VR Developer**
  Issued by Unity Technologies — Focused on VR development using Unity and C#, interaction systems, and performance optimization.
- **AI & Machine Learning Fundamentals**
  Issued by Online Learning Platform — Covered supervised learning, feature engineering, and model evaluation using Python.
- **AR / VR / XR Specialization**
  Issued by Coursera — Covered XR concepts including tracking, interaction models, and application workflows.
- **Data Structures & Algorithms Practice**
  Issued by LeetCode and HackerRank — Solved 150+ problems; earned 3-star HackerRank badge.

RELEVANT COURSEWORK

Data Structures and Algorithms, Operating Systems, DBMS, Computer Networks, Machine Learning, Cloud Computing, Web Technologies

ADDITIONAL INFORMATION

Basic proficiency in Japanese (A1); beginner-level German. Strong interest in problem solving, backend systems, and applied AI development.
